*We introduce
to the skilled organist*

The new
**CONCERT
MODEL
HAMMOND
ORGAN!**

**Has full 32-note concave, radiating
A.G.O. pedal keyboard, and additional
new Pedal Solo Unit tunable to preference.**

Here, at a very modest price, is the Hammond Organ for which concert organists have longed—the instrument on which the great organ works of the world may be rendered with a tonal grandeur and clarity commensurate with the ability of the artist himself. Few instruments indeed, even among the great cathedral organs of the world, offer resources that compare with the Concert Model.

- **Thousands of rich organ and orchestral tones, readily available**
- **Pre-set keys providing most desired combinations instantly**
- **Beautiful, true vibrato and chorus, in three degrees and “off”**
- **Only organ in the world that cannot get out of tune**

These, and many other exclusive advantages of the Hammond Organ, make it important to every fine organist to see and try the Concert Model as quickly as possible. Without any obligation, of course!

Adams Music Co.
